Marilyn Case Wins Grant For Graduate Work at Duke

Marilyn E. Case, a senior at the University, has been awarded the \$2,300 James E. Duke fellowship at Duke University Graduate School of Arts and Science, Durham, N. C.

Marilyn Case

Enrolled in the College of Arts and Science, Miss Case is majoring in biology with minors in French and chemistry. A native of Pittsfield, Mass., she will graduate in June.

At Duke she plans to pursue graduate work in ecology which embraces the relationship of animals to their environment, minor in marine zoology. Case plans to continue study toward her Ph.D. at Duke. The fellowship she has received is subject to renewal.

Case has been on the Dean's List for each of her four years at the University and has ranked first in her class during her sophomore, junior and senior years. She has been honored each year at the University's annual scholar's dinner at which time the top 10 scholars in each class are singled out for recognition by University officials.

President of the Biology Society this year, she is also vice president of her dormitory, Seaside Hall and a member of the French Club. She has also participated on the Student Spirit Committee, served as secretary of the Biology Society and has been awarded membership in Aristeia, the University's top honor society.

Awards received at the University include receipt of the outstanding freshman award and Aristeia's award given to the highest ranking sophomore. Case has received University scholarships in her junior and senior year and has served as a laboratory assistant in the biology department.

A graduate of Pittsfield High School, class of 1953, she was an honor role student. She held membership in Pro Merito, Tri Hi Y, student pen staff and participated on the yearbook and pen staffs.

TO PLEAD FINES

Parking violators will have a chance to plead their cases today at a meeting of the University Parking Committee from 10 a. m. to 12 p. m. in room 28 at Alumni Hall, it was announced today by a committee spokesman.

YEARBOOK PHOTOS

A yearbook photographer will be on campus for the remainder of this week taking advanced pictures for next year's publication, according to the Office of Public Relations.

Pictures will be taken of students who will be graduating next June on the third floor of Alumni Hall during the day. Appointments can be arranged with the photographer.

June Grads Get Invite To Dance

Members of this year's 1957 graduating class have been invited to the spring alumni reunion dance in the Raven Inn, Stratford, on Saturday, June 1, as part of the spring alumni reunion activities.

This will be the night following the Senior Class' own reunion dinner-dance in the Hotel Barnum.

The invitation to the 1957 graduates has been extended by Gerry Bennett and Bob Brotherton, co-chairmen of the Class of 1956 reunion committee. The 1956 class is one of six such alumni groups conducting reunions on June 1.

All graduating seniors and sophomores who wish to attend the dance will not be charged the \$2.25 admission fee, but will be required to pay \$1.50 per couple "corkage fee." The dance is strictly a "bring your own" affair and admission is by reservation only. Further details may be obtained either from the Student Activities or Alumni Offices.

Unlike past years, the spring alumni reunion this time will not be a general one. Only members of the classes 1932, 1937, 1942, 1947, 1952 and 1956 will be involved in a session of afternoon campus activities and the evening dance. A luncheon, talk by Dr. Littlefield, campus tour and reception will highlight the afternoon program while the dance runs from 9 p. m. until 1 a. m.

The idea to make the alumni spring reunion for certain selected classes only was conceived by Mr. Harvey Seltzer, '53. Seltzer, who is chairman of the Alumni Association's Social Activities Committee, feels that this type of reunion will serve to strengthen class ties and assure returning alumni of seeing former friends and classmates when they come back on campus after long periods of absence.

Gym Dedication Tops Wistaria Week Frolic

The high point of the University activities for the spring semester is scheduled to begin on Sunday, April 28, when the Gym Week and Wistaria Week-end Committees initiate their respective dedications and celebrations.

Mrs. Marion Lunn announced that plans have been completed for the Sunday judging of the Wistaria Queen. She said that invitations have been sent out to local townspeople to be judges. A tea is to be held on the second floor of Alumni hall and a band has been contacted to play in the afternoon.

Throughout the week, displays and exhibits of sports sculpture and photography will be open to the public. Tuesday has been set aside for exhibitions of physical fitness tests under the leadership of co-chairman Ruth Muldoon and John McKeon.

On Wednesday, May 1, the actual dedication ceremonies will be held. Pres. James H. Halsey will act as chairman and the guest speaker is expected from the Department of Health, Education, and Welfare. Public inspection of the Gym start in the afternoon and be followed by ten individual demonstrations of physical education activities.

These demonstrations will cover such fields as volleyball, badminton, weight lifting, among others, and will be conducted by members of the physical education staff.

The demonstrations will continue on Friday as the department attempts to cover everything from baseball to square dancing and bait casting.

Saturday will be concerned with registration, tours of the campus, and alumni inspection of the Gym. Visitors will move to Seaside Park to watch the University of Bridgeport - Upsala baseball game. Demonstrations by the students of Arnold Alumni are also planned for the afternoon.

The Alumni Banquet will be followed by the dedication of the E. H. Arnold Memorial Room under the chairmanship of William Bercowitz, president of the Arnold Alumni Association.

The Wistaria Pageant will be held on Sunday, May 5. Albert Dickason said that the formation of a parade, consisting of various campus organizations, will end the week's activities. Chairman John Steeneck is now formulating the parade lineup. (see Gym Week Program on page 4)

Vote Scheduled Today by Board Of Associates

Members of the University's Board of Associates will hold their annual spring meeting in the Arnold Room of the Gym today.

Election of officers is scheduled to take place as well as a discussion of plans for the board sponsored annual Charter Day dinner.

The Board of Associates, composed of 100 men and women active in the civic, industrial, financial, commercial, professional and social life of the community, is organized to foster and advance the welfare of the University.

Among the specific programs conducted by the group are annual sponsorship of the Charter Day dinner and responsibility for the University's annual Open House. The board also sponsors several scholarships for worthy students.

Engineers Sponsor Convo

Noted German Scientist To Speak on Gas Turbines

A noted German engineer, who formerly worked for the world famous Junker factory before coming to this country, will speak at a convocation sponsored by the University's Engineering Society, Walter Gunderson, society president announced today. The talk will be held Wednesday, May 8 at 2 p. m. in T-101.

HEINRICH ADENSTEDT

Dr. Heinrich Adenstedt, long noted as a pioneer in the field of aircraft propulsion and now associated with the Avco Manufacturing Corp., will talk on the topic, "The Why and How of Gas Turbines."

Although an Engineering Society sponsored lecture, the talk is open to all students, who will receive convocation credit for attending. The main purpose, according to Gunderson, is to acquaint the non-technically inclined person with a basic understanding of this new field.

Many leading engineers, as well as members of the society, feel that our future will be "greatly affected" by the gas turbine engine. They feel that someday, the buses we ride, the cars we drive and the trucks that deliver our goods will be, in all probability, powered by a gas turbine engine.

Dr. Adenstedt attended the universities of Marburg-Lahn, Vienna and Munich, and obtained his Doctor's Degree in 1953 at Marburg-Lahn. Following research work in several areas, he (continued on page 6)

Steel Foundation Awards \$1000

University officials have announced receipt of an unrestricted \$1,000 grant from the United States Steel Foundation, Inc., under the foundation's aid-to-education program.

Nearly 1.8 million dollars was distributed to over 600 of the nation's privately supported liberal arts colleges, universities, technological schools and medical schools this week.

In making the announcement, Roger M. Blough, chairman of the Board of Trustees of the foundation said: "The action of the trustees represents an effort by this foundation to extend aid in some form to almost every voluntarily-supported institution of higher learning which has clearly demonstrated both its desire and ability to help itself through the crisis presently facing higher education."

Pres. James H. Halsey said that the \$1,000 grant would be set aside with other unsolicited grants from foundations for the establishment of laboratory and classroom facilities for proposed majors in the field of physics and chemistry.

APO to Auction Lost Gear

APO's Lost and Found reported that a sale will be held in the near future to dispose of the large variety of items that have accumulated in the booth during the last two semesters.

Students, who have lost articles, are urged to check with the Lost and Found booth on the second floor of Alumni Hall between 12 p. m. and 1 p. m., Monday through Friday.

Let's all VOTE

SC Vote Slated Monday

All students will be given the opportunity to participate in the voting for next year's Student Council representatives next Monday and Tuesday. Pres. Bob D'Andrea reported that the election, which is conducted by the Political Relations Forum, will be held on the main floor of Alumni Hall.

D'Andrea said that students may vote between 9 a.m. and 3 p.m. on either day, but to be eligible, they must bring their I.D. cards.

The following positions will be filled: six juniors to serve as next year's senior representatives with two alternates; five sophomores and two alternates for next year's junior members; and four present freshmen with two alternates for the new sophomore delegation.

Eight present senior members of the council will be graduating in June. They are Bob D'Andrea, Bette Weber, Dave Barr, Jack Reichel, Bert Siegel, Bill Bartlett, Sal Mastrandrea and Jim Ide.

Outgoing President D'Andrea stated that this is the "one chance for students to take a part in University affairs. Through the Student Council, the student is able to express his opinions and desires."

D'Andrea further stated that "many students have complaints or gripes about what is or is not done at the University. The council affords them an opportunity to get out and do something about it, either through active participation or by electing people who are interested in University affairs and will best represent the student."

D'Andrea spoke out against critics of the student governing body. He said, "We don't want these elections to be popularity contests. The council acts as a liaison between the student and the administration. It answers questions for the students and is the center of student authority, that is, it is the key to solving student problems."

The council president further stated that "getting on the Student Council is not extremely hard. Any student who feels that he would like to participate is afforded the opportunity to do so. No student should feel that he cannot be elected. If the stu-

Bob D'Andrea

dent makes it known that he is interested and presents a nomination petition, his interest will be recognized, and his name will also be known to the student body."

He also said that the importance of the Student Council is constantly increasing. "The University is comparatively young," said D'Andrea, "and is faced with numerous growing pains. The future shows a tremendous increase in enrollment at all universities, including this one. It is up to the students, by taking an active interest in student government, to make this growth acceptable and successful. The Student Council is the best vehicle given the student in helping create and strengthen the University."

Along Park Place

by Vinny Caprio

"What cha gonna do tonight Ron?"

"I don't know, what cha gonna do?"

"Wanta go to a dorm an see a coupla girls?"

"Naw! They ain't there, they went to the Wistaria Ball."

"Yea?"

"Yea, remember my telling you we shoulda got a date last week?"

"Yea, but I forgot. So now whata we gonna do?"

"I don't know, what do you wanta do?"

These two cubic fellows were left without a date for UB's fabulous Wistaria Ball, and the conversation was passed on as a reminder to all of the male students that the time, and number of eligible females are quickly diminishing. So don't be left with nothing to do the night of May 3, 1957; go and ask her now.

Congratulations to SLX's pride and joy Frank Russo. He and Ginger Morbell have been married since Dec. His fraternity brothers claim this was the only thing Frank ever kept quiet about. While on the subject of connubial matters, we've been informed by very good sources, Dave Barr said he was in a marrying mood. Line up girls, or is it Beware??!!

Vivacious Nancy Shapiro has suddenly become a southpaw. Her reason, as it is for most of

her sex, is the acquisition of a girl's best friend. The lucky lad is Herb Gitell of Newton Center, Mass., and Indiana Tech. Nancy is a Weylister girl, and resides in Southport Hall.

From the Phys. Ed. department we hear that two of its muscle men have lost their hearts and pins. Bobby Mark of AGP has pinned lovely Joan Knox a medical secretarial student. SPA's Stan Roman and pretty Jocelyn Poisson, a DH student, are that way about each other.

Flash! Seaside Hall has just set a record. This is a record?? Charming Nina Taylor is now Mrs. Steve Fried. This is the second Seaside lass to be married this year. Nina is studying sociology while Steve attends Lafayette College taking prelaw courses. Best of luck to you both.

Commercial art girl Ann Plotkin and Marty Miller of Lycoming Engineering are two "go-in-steadiers." Another happy lassie is Micki Abrahams since Marv Richelsofph of Wayne U. paid her a visit.

Many UBites spent their vacation in Florida or Bermuda, but only one returned still day dreaming. Jose Mizrah's steady companion, while he was in Fla., certainly left an impression upon him, and the people at the (continued on page 4)

Journalists Visit Television Show

Eight University students formed the entire theater audience of the television program, "Robert Montgomery Presents," on April 8 in New York.

The group was composed of members of the journalism course, "Writing for Radio and Television." The trip was arranged and conducted by Paul DeFur, class instructor, who is also program consultant for NBC.

The event was the second in a series of field trips from which "the prospective writer may gain a better understanding of the physical aspects of television production," according to DeFur.

The group sat in the client's booth and watched the final dress rehearsal of the Montgomery show which featured "A Slice of Life." The students were then introduced to producer Joseph Bailey who discussed the program and its physical makeup.

Making the trip from the University were George Kolok, Charley Anderson, Larry Babich, Dave Johnston, Jack Mischou, Willard Miller, Ernie Svab and Frank Collole.

It's Ended for Some, But Summer Term's Near

The University's annual 10-week summer session will begin Monday, June 24, and end Friday, August 30, University officials announced today.

Registration for day classes has been scheduled for June 21 with evening class registration to take place June 21-22.

Alpha to Zeta

by Bobbie Blender

Let's all look forward to SOS's dance this weekend, tomorrow night at Lenny's. As we told you last week they're having Eli's Chosen Six. So let's see all of you Ivy characters there.

The brothers of KBR wish to take this opportunity to formally welcome their new members, Bob Lynch, Dick Roth, Matt Kaishian, and Ben Biscoglio to the group. They sincerely hope that the boys enjoyed and profited from their pledge trip which took them throughout the continental United States. After all, it did break up the monotony of school! Brothers wish to apologize for Peachy Cassel and Gus Gazdik who broke your paddles. It's all in fun.

Hey, Hey, the boys of AGP have won the intramural basketball championship again this past Thursday night in a game against the Honeybuckets. This victory marks the fourth year in a row that AGP has won the intramural league. During the fall semester the intramural touch football championship was won by none other than AGP and they are aiming for the softball title as well.

In just three weeks the Ivy men of POC will pack their Brooks Brothers' bermudas, charcoal flannel suits and rakish green berets and take off their vacation (three days long)

(continued on page 5)

Late application fees for prospective students will go into effect after June 15 according to Dr. Donald W. Kern, director of Admissions.

The 10-week session is divided into two five-week periods with the second term scheduled to begin on July 29.

A three-week intersession covering six workshop programs on the graduate level has also been scheduled to take place between July 29 and August 16.

Workshop areas will include: education of the gifted child, creativity and the elementary school, workshop in curriculum development, workshop in care curriculum development, guidance in the elementary school and economic education workshop.

Day classes during the 10-week session are scheduled on a five weekday, Monday through Friday basis, Dr. Kern said. Most courses are taught on a concentrated basis enabling students to complete the full semester of work in the subjects studied during the 10-week summer session.

Most of the classes given in the evening are taught at the normal rate providing for the completion of a single semester's work during the 10-week session. Some classes are accelerated, however.

Offerings during the summer session will include courses in art, biology, ceramics, chemistry, economics, education, engineering, English, French, general business, history, industrial relations, marketing, mathematics, music, nursing, philosophy, physical education, political science, psychology and sociology.

Graduate level programs will also be offered in the University's College of Education.

next table also. She was the main topic of conversation in both states Poor Jose never did get her number.

April 29, the elections for Student Council will be held. This is your opportunity to vote for the individuals you believe will get you the representation you desire.

The Falcon, who was formerly employed in the Noonan Valley, is now the friendly man who sells Good Humors. So don't be alarmed if there's a man in a white suit following you; it's only Vinny Falcone.

On Wednesday, another addition to the growing UB will be dedicated. It will be one of the two yearly all college convocations. Aside from the convocation credit, every UBite and UBette should be more than happy to attend. The impressions received by visiting dignitaries, when they attend such a function and see the entire student body in attendance, is one of those intangible assets that add to the prestige of the University of Bridgeport. So when 1:15 p. m. Wednesday rolls around, have that smile of pride upon your countenance when you stroll over to the Gym.

SO-LONG. D.E.T.

Wistaria Queen Runoff Planned For Alumni Hall

The first event in the 1957 Wistaria Weekend ballyhoo will be held at 3 p. m. Sunday, April 28, with eliminations for the Wistaria Queen contest.

Mrs. Marion Lunn, director of Social Activities, announced that candidates for Wistaria Queen will be presented in Alumni Hall. Judging will be done by five prominent Bridgeport citizens.

Mrs. Lunn said the candidates will be presented twice, once in street clothes and once in cocktail dresses. All but seven girls will be eliminated. The Wistaria Queen will be selected from the seven finalists in a student ballot that will be held in Alumni Hall by the Political Relations Forum April 29.

Also included in the program will be a tea for all candidates and judges in the second floor of Alumni Hall. There will be a small band and free coffee for students on the first floor.

The winner of the contest will be presented at the Wistaria Ball which will be held at the Ritz Ballroom, May 3.

Dedication Program demonstrations and exhibitions will include:

Saturday, April 27 (9:15 a. m. - 5 p. m.) Connecticut High School Cheerleading clinic and invitational championship, Mrs. Diane Babbitt, director of cheerleading, Springfield College.

Sunday, April 28 — (2-5 p. m.) open house at the Gym; exhibits, mobile exhibition of sports sculpture; courtesy of Joseph Brown, Princeton University; Olympic commemorative stamps, courtesy of Prof. Deane Keller, Yale University; photographic display of sports in the United States, courtesy of Sports Illustrated magazine; winners of sports photography contest, courtesy of Rawlings Sporting Goods Co.; model of school-community outdoor athletic facilities, courtesy of Arnold College Division senior class.

Monday, April 29 — (7-7:30 p. m.) speed punching bag demonstration and exhibition by Roy Loveridge and Harold Shackleton, Bridgeport; fencing, C. B. Broderick, Norwalk representative and Olympic fencer; (8:15-8:45 p. m.) table tennis, Sidney Shapiro and Skirman Rastas of Bridgeport, Emil Larue, Stratford and Anatol Mihailoff, Fairfield; (9-10 p. m.) tennis, Mr. Moylan, representative of Wilson Sporting Goods Co., who will play against and, as yet, unnamed opponent.

Tuesday, April 30 — (7-9 p. m.) a series of physical fitness tests to test physical fitness and reflexes designed for audience participation sponsored by the Arnold College Division and the UB department of psychology.

Wednesday, May 1 — (1-15:30 p. m.) dedicatory exercises, Dr. McCarthy, principal speaker; (7-8 p. m.) volleyball, Fred Geisler, New Haven Y.M.C.A. with members of New Haven and New Britain Y. M. C. A.'s; (7-8 p. m.) weight lifting and body building, Mr. Weisbrot; gymnastics, Edward Scrobe, member of 1952

Olympic team and of New York Turners and Alfred E. Scholz, Yale University, demonstration of twisting belt; (9:15-10:15 p. m.) social dance demonstration of latest ballroom steps, Ted Nicholas, Nicholas-Mandos School of Dance.

Thursday, May 2 — (7-8:15 p. m.) modern baseball, Mr. Allen, Springfield College, "Defensive Baseball," Gordon Hollywood, Wilson Sporting Goods Co., "Purchase and Care of Equipment"; magnetic board demonstration, Maggie Magnetic Inc.; (7-8:15 p. m.) selected track events, Tris Carta, track coach, Roger Ludlowe High School, Fairfield; (8:20-9:10 p. m.) experiences with 1956 U. S. Olympic teams, Stephen Witkowski, head trainer, Wesleyan University and of the 1956 U. S. Olympic teams; (9:20-10:30 p. m.) baseball and umpiring clinic, Bernard Iasogna, umpire-in-chief of the Connecticut Amateur Softball Assoc. and Commissioner of Fairfield County Baseball Assoc.; (9:20-10:30 p. m.) selected track events, Dr. Ryan, Yale University.

Friday, May 3 — (7-8 p. m.) rhythm and dances for elementary school children, Frank Kaltman of Folkraft Records Co.; (7-8 p. m.) archery, William "Doc" Skerlick, director of junior activities, Fairfield County Fish and Game Protective Assoc.; (8-9 p. m.) square dance calling techniques, C. Gordon Berrien, American Square Dance Callers Assoc.; (8-9 p. m.) golf, Mr. Homa; (9:10-10:15 p. m.) techniques of fly casting, Mr. Skerlick; (7:30-9 p. m.) camping for the family, Robert A. Eade, camping instructor, Bridgeport Y. M. C. A.

Saturday, May 4 — (9:30 a. m. - 11 p. m.) Arnold College Alumni reunion and dedication in Arnold College Room in the Gym; speaker, I. Robert M. Shultz, director Bridgeport Recreation Department.

Sunday, May 5 — (3-4:30 p. m.) Wistaria Pageant, theme, "A Salute to the Gymnasium."

Students residing in New Haven, West Haven, Orange, Woodbridge, Bethany, Hamden, North Haven or East Haven are eligible for the scholarship given by the Rotary Club of New Haven.

According to the by-laws of the club, "applicants to qualify for favorable consideration must be of good character, high scholarship, cooperative in attitude toward school and community and earning a share of their expenses."

Each year the Rotary Club apportions \$1,000 or more for scholarship gifts to students from this area. Scholarship gifts are usually arranged to take care of part of the expenses and the balance is covered by a scholarship loan.

Interested candidates should immediately contact Dr. Kern, University Registrar.

Brown Hurls Shutout Against Newark

With the season approximately one-third over the University's baseball club has won three while losing four, but far more important, it finds itself plagued with injuries which has sidelined four key players.

Two front line pitchers and the all-important keystone combination have been disabled. The most serious injury occurred in the club's opener when Jimmy (Vandy) Kirk fractured his right leg sliding into second base and will be lost for the season. His sidekick, Charley Pike, injured his left leg in the Springfield contest and will be out indefinitely.

The club's leading pitchers, Pete Brown and Bernie (Skipper) DePace, will be out for about a week because of slightly pulled muscles.

Both Brown and DePace hold the school's strikeout record in one game with a total of 16. Brown turned the trick against

Newark College in the opener as he pitched a neat seven-hit shutout, winning the game, 5-0.

DePace duplicated the feat a week later when he hurled his club to a 4-2 triumph over Danbury State Teachers' College as Joe Candella homered for the Purple Knights.

The University's third victory came at the expense of Adelphi College when they outlasted their rivals in a wild contest. Trailing 10-1 at one stage of the game, the Purple Knights rallied for six runs in the fifth and eventually took the game, in its half of the ninth inning as Al Feldman singled home the deciding run. The final score was 12-11.

On the losing side of the ledger the University lost its second game of the season to Rider College by the score of 6-2. O'Donnell was the starting and losing pitcher. Rider scored all of its runs in the third inning and coasted to an easy win.

Pete Brown started his second game and the University's fourth when the team traveled to Brooklyn to face the powerful St. John's nine. St. John's, which capitalized on errors, scored eight unearned runs to win the contest, 11-3.

The University lost its last two contests, battered by Fairleigh Dickinson and Springfield College by the scores of 9-4, and 17-1, respectively.

The club's leading hitter is Joe Candella. Including the fourth game of the season, which was with St. John's, Candella was hitting a lusty .375. The ex-Harding High School senior is also the runs-batted-in leader with four.

Tomorrow the University travels to Springfield, Mass., to face American International College, and on Saturday the team visits Fairfield to play its arch rival, Fairfield University.

Bpt. Attorney Named New Trustee

Herbert L. Cohen, Bridgeport lawyer and resident of Fairfield, has been elected to the Board of Trustees of the University, according to Alfred V. Bodine, board chairman.

Cohen was elected at the annual spring meeting of the board which took place at the University's Marina Hall prior to the Easter vacation.

Head of the legal firm of Cohen, Schine, Wolf and Blawie located in the Bridgeport City Trust Building, Cohen was born on the east side of town in 1905.

A graduate of Central High School, he went to Yale at the age of 15, receiving his B.A. degree in 1925 and L.L.B. degree

from the Yale School of Law in 1928. At Yale he was elected to Phi Beta Kappa. Following graduation from law school he passed his bar exam during the same month.

Cohen has served two terms in the General Assembly as representative from Fairfield. From 1932 to 1945 he served as prosecuting attorney and judge in the town court of Fairfield.

He is a past president of the Jewish Community Council and of the Jewish Community Center. Appointed by Mayor McLevy, he served on the Civil Rights Committee to make a survey of the extent of discrimination found in housing, employment and public places.

at the Concord. This is certainly an innovation in campus weekends, n'est-ce pas?

This week a new fraternity on campus will present its constitution to the IFC for its approval. Phi Delta Rho, just one year old will soon apply for a vote of acceptance from the IFC, according to the latter's constitution, which states that such organizations must be on probation for a year.

Look for your IFC in the Wistaria Pageant — you'll recognize them by the new banner which they'll be carrying.

Speaking of IFC, we are taking time to congratulate its president Arnie Miller and his adorable wife, Gail, on the new addition to their family—Penelope, a male hamster!

You smoke refreshed

A new idea in smoking...all-new **Salem**

Created by R. J. Reynolds Tobacco Company.

- menthol fresh
- rich tobacco taste
- most modern filter

Think of how a Spring day refreshes you and you'll have a good idea how refreshing all-new SALEM cigarettes taste. The freshest taste in cigarettes flows through SALEM's pure white filter. Rich tobacco taste with surprise softness...menthol-fresh comfort. SALEM—you'll love 'em.

Salem refreshes your taste

Exhibit Shows Florian's Work

An exhibit of industrial design watercolors by Gordon Florian will be on display in the Lincoln Room of the Library on April 29.

Arranged by James O. Jackson, coordinator of the art department, the display is the sixth in a series of exhibits sponsored by the art department during 1956-57.

Formerly assistant professor of design at the University, Florian has also lectured at Harvard University, Lehigh University and M. I. T.

His design works have been exhibited at Milan, Italy, international trade fairs at Liege, Belgium and Barcelona, Spain, and in museums at Houston, Texas, and Akron, Ohio. Paintings by him have been exhibited in New York, New Haven, Hartford, Bridgeport, Essex and Silvermine.

Florian's design experience has included service as assistant director of design at General Electric and director of design at Reeves-Ely Sound Laboratories. He designed the first streamlined diesel electric Fairbanks-Morse locomotive.

He has conducted his own design business for the past 10 years. His products include clocks, ranges, lamps, table appliances, instruments, cleaners, barometers, radios, business machines, camera equipment, industrial equipment, displays and packages.

Student Advises Profs to Read Funnies for Education

A student here says the University can be the most advanced institution in the world if its faculty would spend more time reading the comics.

"That's where the new ideas are," asserts Eugene L. Silver, a history major in the College of Arts and Science.

Silver is a part-time employee of the Walgreen New England Drug Co. Officials there have estimated that he has saved the company many thousands of dollars through suggested improvements in their products and policies.

He recently received a check marking the company's acceptance of his tenth suggestion. His latest idea concerned a logical method of describing vitamins.

Earlier suggestions dealt with inventory control, package styling, proper labeling, personnel cards, new products and customer services.

For one of his historical writing courses, Silver is preparing a paper on the influence of

the comic strips in modern day thought.

"What we learn from faculty members and college textbooks is pure routine . . . tried and tested methods . . . standard operating procedure."

He claims there is no creative thought in the University such as is found in the daily adventures of Superman and Buck Rogers.

In his paper, Silver plans to stress the lack of imagination in two areas:

One section is titled, "Practical Problems in the Physical Structure of UB."

Another chapter will carry the heading, "Methods of Modernizing the Student-Teacher Relationship."

Among other things, Silver intends to point out that the parking problem is solved in the comics and that the University could correct its situation by following the cartoon ideas—after revision, of course.

Although some of the solu-

tions may be far fetched, he said, much of the material is creative thought and could be adapted easily to most present situations.

Today, he said, the University should be planning where to park helicopters and boats rather than autos.

The history student said UB's biggest failing is in the classroom.

"Teaching methods are old fashioned and the result is an apathetic faculty and student body," he declared.

In his forthcoming paper, Silver plans to show that under the present system it is not necessary for students to attend classes.

All that is required in most classes, he explained, is that students sit and take notes on what the lecturer says.

"Why not just furnish the student with a mimeographed lecture and let him stay home," he remarked.

Under his plan, a class would

be conducted partly as follows:

The teacher would speak briefly to outline the subject matter of the lecture. Then he would call on a guest speaker to discuss the modern applications or a different view of the material.

Students would not "waste time" taking notes. The class would be free to interrogate the lecturer and the guest "with no holds barred."

While the class is in process, the proceedings would be relayed to a central secretarial staff. A member of the staff would transcribe the lecture into machinery which would print the material and have copies available for the students as they leave the class.

In this way, Silver said, the student and teacher could be free at all times to study reasoning processes and to socialize.

Silver claims that thinking is a lost art and that it is the responsibility of the UB faculty to revive the system—even if it means reading the comics.

"What's it like to be in

BUSINESS ADMINISTRATION AT IBM?"

Two years ago, Robert Everett asked himself this question. Today, as Administrative Assistant to the Divisional Controller, Bob reviews his experience at IBM and gives some pointers that may be helpful to you in taking the first, most important step in your business career.

Filtering out the "hot" projects

Promoted the same year

By December of the same year, Bob was promoted* to his present job—Administrative Assistant to the Controller of the Data Processing Division. "The first function of an Administrative Assistant," says Bob, "is to filter out the 'hot' projects from those that can be handled later. You follow through on projects assigned by the controller and keep

Keeping the boss posted

him posted on their progress." Bob's new position affords a pleasant diversification of work: charting divisional responsibilities of the controller's function . . . plans for decentralization . . . costs of regionalization . . . summarizing key financial and statistical information for presentation to top management.

Bob points out that there are many areas in Business Administration at IBM for men with an M.B.A. or a B.S. in accounting: corporate, general, and factory accounting; internal audit; methods; payroll and taxes. Administrative and management positions constantly open up at World Headquarters, IBM's 188 branch offices, many plants and laboratories.

Why Bob picked IBM

Bob made a careful study of existing opportunities before selecting IBM for his career. He had a dozen campus interviews; took nine company tours. IBM's M.B.A. program interested him—because, as he says, "It gave me a chance to review the entire company before starting an actual line assignment." He was intrigued by the increasing use of data processing equipment in finance and he knew that IBM was a leader in this field. Salary-wise, he found IBM better than many, but it was company growth potential that motivated his choice. "Opportunity certainly exists

"Opportunity certainly exists at IBM"

at IBM," he says. "Growth factors alone will account for many new executive positions. A second factor is the trend toward decentralization, which also creates new jobs. These factors, plus IBM's 'promote-from-within' policy, add up to real opportunity."

IBM hopes that this message will help to give you some idea of what it's like to be in Business Administration at IBM. There are equal opportunities for E.E.'s, M.E.'s, physicists, mathematicians and Liberal Arts majors in IBM's many divisions—Research, Product Development, Manufacturing Engineering, Sales and Sales Assistance. Why not drop in and discuss IBM with your Placement Director? He can supply our latest brochure and tell you when IBM will next interview on your campus. Meanwhile, our Manager of College Relations, Mr. P. H. Bradley, will be happy to answer your questions. Write him at IBM, Room 10001 590 Madison Ave., New York 22, N. Y.
